1 Install 3 AA Batteries

The battery compartment door is secured with the included Phillips-head screw.

Close battery door and secure it with small Phillips-head screw.

Place monitor back into its plastic protective boot.

2 Connect the Pressure Pad

A. Pinch the cord together and route it through the strain relief recess.

B. Plug the cord into the monitor.

3 Test the System - Pressure Pads

A. Put pressure on the sensor pad to activate the pad and the fall monitor. The fall monitor will beep two times to indicate that the sensor pad and the fall monitor are in use. The "Status" light will blink when pressure is on the pad. (B) When pressure is removed, the fall monitor will sound the alert tone. Press the reset button to silence the alert.

4 Test the System - Floor Mats

Step on the floor mat. The alert will sound. Press the Reset button to silence and reset the monitor.

5 Mounting the TL-2100S

1 Mounting screws in headboard or wall.

2 Hang the monitor on the screws using the mounting holes on back of the monitor.

Monitor may be mounted to a bed or a chair with the included locking mounting strap.

6 Resetting the Monitor/ Tamper Proof™ Mode with Caregiver Key™ (Optional)

Caregivers can choose to reset the TL-2100S in either of two ways:

Select either "Reset Button ON" or "Reset Button OFF, Use Caregiver Key™ To Turn OFF" with the switch on the side of the TL-2100S Fall Monitor.

1. Press the Reset button on the front of the monitor ("Reset Button ON" mode).

2. Insert optional Caregiver Key™ into hole on the front of the monitor. ("Reset Button OFF, Use Caregiver Key™ To Turn OFF" mode).

This mode allows only the caregiver to reset the monitor.

For more information about the Caregiver Key™ and how it can be used in your facility’s Fall Assessment Program call 800-650-3637

"Reset Button ON" Mode

Press the Reset button to reset the monitor.

"Reset Button OFF, Use Caregiver Key™ To Turn OFF" Mode.

Insert optional Caregiver Key™ into hole on the front of the monitor.
