

Home Safety Checklist

STAIRS AND STEPS

Make sure light switches are at both the top and bottom of the stairs

Look at installing motion detector lights that automatically turn on and light up your stairs

Install handrails on both sides of the stairway

If you have wooden steps, place non-slip treads on each step

use solid colored carpets on stairs - this will show the edges of the steps more clearly.

Ensure loose rugs are removed from both the top and bottom of the stairs
